

OVERVIEW

LATA is a leading provider of environmental investigative and remediation services, and for over fifteen years has provided services for commercial and Department of Defense and Department of Energy clients. LATA excels in project delivery of services needing multiple disciplines for a solution. Having expertise from investigation through design and implementation as well as operations and maintenance, LATA provides for the vision of the end state from the beginning of a project.

LATA has successfully performed complex environmental restoration and waste management projects within every US regulatory region, tailoring our process to best address site issues and project end-state requirements—our exemplary performance record is due in part to our ability to self-perform the work, allowing us to apply our field experience to deliver results safely and to effectively control schedule, quality, and cost performance.

AREAS OF EXPERTISE

- Full-service environmental remediation (remedial investigation through remedial action operations):
 - Site investigations and studies
 - Regulatory support and risk assessment
 - Groundwater modeling and plume delineation
 - Groundwater and soil remediation services (self-perform construction)
 - Civil/environmental science and engineering
 - Permitting and regulatory assistance
 - Design-build and design-bid construction management of civil and environmental construction and remediation
 - Demolition/decontamination/decommissioning of hazardous and radiologically contaminated facilities
 - Treatment system operations and maintenance
 - Long-term monitoring
- Industry leader in waste management, industrial safety, and ES&H program support
- Waste treatment systems design and operations

EXAMPLE PROJECTS

- Multiple year system design/operation/maintenance of groundwater treatment systems ranging from 10 gpm to 2500 gpm
- Complex vapor intrusion investigation involving more than 100 private residences for a commercial client
- Record of Decision Amendment for all groundwater at Air Force Plant 4
- Texas Bases Performance Based Remediation Contract (6 bases, \$30M)
- Management of numerous CERCLA and RCRA client sites
