

OVERVIEW

LATA has managed and supported dozens of Programmatic, Sitewide, Supplemental and project specific Environmental Impact Statements (EISs), Environmental Assessments (EAs) and other NEPA actions for DoD, DOE and other federal agencies supporting new programs, new construction, change of mission, transfer of property, and other activities. Included in these projects were wetlands delineations; archaeological and cultural resource investigations; threatened and endangered species studies; traffic and transportation evaluations; noise analyses; environmental justice assessments; health risk and accident assessments; visual resource modeling; intentional destructive acts analysis; air quality, climate and greenhouse gas evaluations; energy conservation and sustainable design assessments; soils, geology and seismicity studies; and waste management and pollution prevention studies. LATA has also managed and supported numerous public outreach events.

AREAS OF EXPERTISE

- Wetland jurisdictional determinations and delineations throughout the US for federal, state, local government, and private industry
- Aquatic and terrestrial biological surveys for a range of projects and purposes, including biological inventory, habitat quality and impact assessment, Biological Assessment, endangered species presence and habitat quality, and Ecological Risk Assessment
- Identification of species and habitat identification of plants and animals protected under the Endangered Species Act and similar state law and regulations
- Human health and ecological risk assessments to support CERCLA, RCRA, brownfields and state voluntary cleanup programs, risk-based closures, and other regulatory programs
- Provide archaeological and historic structure services for clients as part projects in compliance with Sections 110 and 106 of the National Historic Preservation Act of 1966. Archaeological services include:

EXAMPLE PROJECTS

Department of Defense (DoD):

- Preparation of NEPA documentation for the McCormack Ranch explosives test range Environmental Baseline Study (EBS)
- Manzano Munitions Storage Complex Environmental Baseline Study (EBS)
- U.S. Air Force Airborne Laser Environmental Impact Statement (EIS)
- Kirtland Air Force Base pursuant to Section 13005 of public law 111-11 Environmental Assessment (EA)

Department of Energy (DoE):

- Sandia National Laboratory Sitewide Environmental Impact Statement (EIS)
- Expansion of the Sanitary Effluent Reclamation Facility and Environmental Restoration of Sandia Canyon Wetland at Los Alamos National Laboratory (LANL) Environmental Assessment (EA)
- Chemistry and Metallurgy Research Replacement Facility Supplemental Environmental Impact Statement (EIS)
- LANL Biosafety Level 3 Facility Environmental Assessment (EA)
- Class III archaeological investigations and excavations covering 4 sites for the Western Area Power Administration in compliance with Section 106 of the National Historic Preservation Act
- NEPA documentation for other Federal agencies: Department of Interior, US Forest Service, NASA, US Fish and Wildlife Service and Bureau of Indian Affairs
